Dear Mani

Could I please take this opportunity to thank Southall Transition Group for the work you have done at Bixley Triangle.

When I first started on the ward in October 2011 the area of land which is known as Bixley triangle soon came to my attention. The area was overgrown and used as an encampment for drug users. The area was rife with drug users and there waste. It was a dangerous place to go due to the amount of human waste and used needles. I took representatives from Cataylst and Ealing Council to the location to seek a long term solution.

Once the land ownership issue had been settled the transformation began. I am very grateful to Cataylst for the time and effort invested in securing the site to enable you to start work on it.

Now that the work is finished the area is transformed, you would not know that this area once blighted the area. The work Southall Transition and partners have undertaken is fantastic. The needles have been replaced with fruit trees! Which some of my team helped plant.

This area of land would of remained an environmental eye sore had you not undertaken the project. I am personally grateful for what you have done. If I can be of any assistance in the future please do not hesitate to contact me.

Yours sincerely,

Sergeant Guy Rooney
Norwood Green ward
